Interview Summary

Applicants thank Examiner Sall for his time and consideration of the proposed amendments in the telephone interview on October 16, 2007. In the interview, the proposed amendments were discussed. An agreement was not reached. The Examiner presented additional interpretations of components of the applied art. Namely, the Examiner indicated that the server of Lenz may be interpreted as the claimed customer premises telecommunications device. Applicants respectfully disagree and note that while a server in general might be interpreted as a hub, the server of Lenz does not meet the other claimed limitations of the customer premises telecommunications hub. As Applicants do not agree with the new interpretations presented in the interview and no agreement was reached on amendments to advance

prosecution, Applicants have determined that the best course of action to advance prosecution is through the filing of a pre-appeal brief.

CONCLUSION

The Commissioner is hereby authorized to charge payment of any further fees associated with any of the foregoing papers submitted herewith, or to credit any overpayment thereof, to Deposit Account No. 21-0765, Sprint.

Applicants respectfully submit that the present application as amended is in condition for allowance. If the Examiner has any questions or comments or otherwise feels it would be helpful in expediting the application, he is encouraged to telephone the undersigned at (972) 731-2288.

Respectfully submitted,
